

Special Event Permit

Santaquin City understands the value of Events in our community. The City's role is to regulate as well as provide support in planning your event, so it is safe for participants, spectators and Santaquin residents in general. We have designed a user-friendly process that will help you with your planning.

What is a Special Event?

Any activity or gathering of participants and spectators occurring for a limited or fixed duration that impacts the city or requires city services, beyond the normal parameters of the facility in use. (I.e. the need for road closures or need for city police officers or parks personnel.) Each event will vary in size and needs and will be reviewed on case by case scenario.

When is a Special Event Permit Required?

Examples of Special events that would need a permit would include: Cultural, entertainment or other types of activities, whether held for profit, nonprofit or charitable purposes. This includes all runs, walks, races, parades, block parties & festivals to name a few.

Note: A permit is not required for gatherings in a self-contained facility that is designed for that purpose and which do not require additional city support outside of the functions of said facility. (I.e. private facility or renting of a pavilion at a park)

No fee
