

Santaquin City Resolution 04-07-2025

MUNICIPAL WASTEWATER PLANNING PROGRAM

WHEREAS, the City of Santaquin is a fourth class city in the State of Utah and operates a Wastewater Collection and Treatment System; and

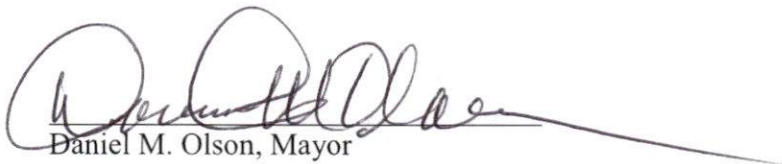

WHEREAS, the Utah Division of Water Quality requires of the Santaquin City Public Works Department an annual Wastewater Planning Program Report; and

WHEREAS, the Utah Division of Water Quality desires formal action of the Santaquin City Council to review said report prior to its submission to the division;

NOW, THEREFORE, BE IT RESOLVED, that the Santaquin City Council informs the Water Quality Board that the following actions were taken by the City Council:

1. Reviewed the attached Municipal Wastewater Planning Program Report for 2025 (See Attached)
2. Have taken all appropriate actions necessary to maintain effluent requirements contained in the UPDES Permit (If Applicable)

Approved and adopted by the Santaquin City Council this 15th day of April, 2025

Daniel M. Olson, Mayor

Councilmember Art Adcock
Councilmember Brian Del Rosario
Councilmember Travis Keel
Councilmember Lynn Mecham
Councilmember Jeff Siddoway

jcallaway@santaquin.gov

Section I: General Information

Note: This questionnaire has been compiled for your benefit to assist you in evaluating the technical and financial needs of your wastewater systems. If you received financial assistance from the Water Quality Board, annual submittal of this report is a condition of the assistance. Please answer questions as accurately as possible to give you the best evaluation of your facility. If you need assistance please send an email to wqinfodata@utah.gov and we will contact you as soon as possible. You may also visit our Frequently Asked Questions page

What is the name of the Facility? *

Santaquin City Water Reclamation Facility

What is the Name of the person responsible for this organization?

*

Dan Olson

What is the Title of the person responsible for this organization? *

Mayor

What is the Email Address for the person responsible for this organization? *

mayor@santaquin.gov

What is the Phone number for the person responsible for this organization? *

801-754-3211x207

Please identify the Facility Location? *

Please provide either Longitude and Latitude, address, or a written description of the location (with area or point).

1215 North Center Santaquin Utah

Are you a federal facility?

A federal facility is a military base, a national park, or a facility associated with a federal government organization (e.g., BLM, Forest Service, etc.)

Yes

No

Federal Facilities

As a federal facility do you have a wastewater collection system?

Yes

No

Collection System

Including piping and lift stations.

This form is completed by [name]?

The person completing this form may receive Continuing Education Units (CEUs).

Jason Callaway

Part I: SYSTEM DESCRIPTION

Please answer the following questions regarding SYSTEM DESCRIPTION.

What is the largest diameter pipe in the collection system?

Please enter the diameter in inches.

18"

What is the average depth of the collection system?

Please enter the depth in feet.

10'

What is the total length of sewer pipe in the collection system?

Please enter the length in miles.

75.28

How many lift/pump stations are there in the collection system?

2

What is the largest capacity lift/pump station in the collection system?

Please enter the design capacity in gpm.

1400

Do seasonal daily peak flows exceed the average peak daily flow by 100 percent or more?

Yes

No

What year was your collection system first constructed?

This can be an approximate guess if you really are not sure.

1994

In what year was the largest diameter sewer pipe in the collection system constructed, replaced or renewed?

If more than one, cite the oldest.

2013

Part II: DISCHARGES

Please answer the following questions regarding DISCHARGES.

How many days last year was there a sewage bypass, overflow or basement flooding in the system due to rain or snowmelt?

0

How many days last year was there a sewage bypass, overflow or basement flooding due to equipment failure, except plugged laterals?

0

Sanitary Sewer Overflow (SSO)

Class 1 - a Significant SSO means a SSO backup that is not caused by a private lateral obstruction or problem that:

- (a) affects more than five private structures;
- (b) affects one or more public, commercial or industrial structure(s);
- (c) may result in a public health risk to the general public;
- (d) has a spill volume that exceeds 5,000 gallons, excluding those in single private structures; or
- (e) discharges to Waters of the State.

Class 2 - a Non-Significant SSO means a SSO or backup that is not caused by a private lateral obstruction or problem that does not meet the Class 1 SSO criteria

How many Class 1 SSOs were there in Calendar year 2024?

0

How many Class 2 SSOs were there in Calendar year 2024?

1

Please indicate what caused the SSO(s) in the previous 2 questions.

Contractor knocked a lid off a manhole while grading. Manhole filled with dirt and plugged main.

Please specify whether the SSOs were caused by contract or tributary community, etc.

N/A

Part III: NEW DEVELOPMENT

Please answer the following questions regarding NEW DEVELOPMENT.

Did an industry or other development enter the community or expand production in the past two years, such that flow or wastewater loadings to the sewerage system increased by 10% or more?

Yes

No

Are new developments (industrial, commercial, or residential) anticipated in the next 2 - 3 years that will increase flow or BOD5 loadings to the sewerage system by 25% or more?

Yes

No

What is the number of new commercial/industrial connections in 2024?

57

What is the number of new residential sewer connections added in 2024?

305

How many equivalent residential connections are served?

5283

Part IV: OPERATOR CERTIFICATION

Please answer the following questions regarding OPERATOR CERTIFICATION.

How many collection system operators do you employ?

5

What is the approximate population served?

17,500

State of Utah Administrative Rules requires all public system operators considered to be in Direct Responsible Charge (DRC) to be appropriately certified at least at the Facility's Grade. List the designated Chief Operator/DRC for the Collection System by: First and Last Name, Grade, and email.

Grades: SLS17-1, Grade I, Grade II, Grade III, and Grade IV.

Gregg Hiatt Grade II ghiatt@santaquin.org

Please list all other wastewater treatment system operators with DRC responsibilities in the field, by name and certification grade. Please separate names and certification grade for each operator by commas.

Grades: SLS17-1, Grade I, Grade II, Grade III, and Grade IV.

Jason Callaway Grade II, Tanner Child Grade III,

Please list all other wastewater treatment operators by name and certification grade.

Please separate names and certification grades for each operator by commas.

Grades: SLS17-1, Grade I, Grade II, Grade III, and Grade IV.

Pat Hatfield Grade II, Shad Eva Grade II

Is/are your collection DRC operator(s) currently certified at the appropriate grade for this facility?

Yes

No

Part V: FACILITY MAINTENANCE

Please answer the following questions regarding FACILITY MAINTENANCE.

Have you implemented a preventative maintenance program for your collection system?

Yes

No

Have you updated the collection system operations and maintenance manual within the past 5 years?

Yes

No

Do you have a written emergency response plan for sewer systems?

Yes

No

Do you have a written safety plan for sewer systems?

Yes

No

Is the entire collections system TV inspected at least every 5 years?

Yes

No

Is at least 85% of the collections system mapped in GIS?

Yes

No

Part VI: SSMP EVALUATION

Please answer the following questions regarding SSMP EVALUATION.

Have you completed a Sewer System Management Plan (SSMP)?

Yes

No

Has the SSMP been adopted by the permittees governing body at a public meeting?

Yes

No

Has the completed SSMP been public noticed?

Yes

No

USMP Public Notice Date

Date of public notice?

MM

10

/

DD

01

/

YYYY

2015

Continue 1

During the annual assessment of the SSMP, were any adjustments needed based on the performance of the plan?

Yes

No

What adjustments were made to the SSMP (i.e. line cleaning, CCTV inspections, manhole inspections, and/or SSO events)?

N/A

During 2024, was any part of the SSMP audited as part of the five year audit?

Yes

No

If yes, what part of the SSMP was audited and were changes made to the SSMP as a result of the audit?

N/A

Have you completed a System Evaluation and Capacity Assurance Plan (SECAP) as defined by the Utah Sewer Management Plan?

Yes

No

Does the collection system have more than 2,000 connections?

Yes

No

Has a fats, oil, and grease (FOG) or fats, oil, sand, and grease program been developed by the collection system?

Yes

No

Part VII: NARRATIVE EVALUATION

Please answer the following questions regarding NARRATIVE EVALUATION.

Describe the physical condition of the sewerage system: (lift stations, etc. included)

Santaquin City's sewer collection system was constructed in 1994 using concrete manholes and plastic piping. As a result, we experience very little inflow and infiltration (I&I). Manholes are inspected every two years, and the entire system is cleaned and video inspected on a seven-year rotation. Our main lift station was originally constructed in 2007 and underwent a major upgrade in 2013 when our new mechanical plant came online. We are currently under contract with a contractor to further upgrade the main lift station. The improvements will include the addition of a submersible pump, a dedicated building for electrical equipment, a new flow meter, enhanced bypass pumping capabilities, new check valves, and jib cranes to assist with pump removal and maintenance.

What sewerage system capital improvements does the utility need to implement in the next 10 years?

Install 18" Sewer Main Along Strawberry Canal Road from 400 East to 100 East. Install 10" & 15" Pipe along 400 East from 530 North to Strawberry Canal Road and Remove Pipe on 530 North. Install 8" Sewer Main from west to 14400 South (county) and Summit Ridge Parkway. Install 8" Sewer Main along Center Street from 100 South to Manhole at 70 South.

What sewerage system problems, other than plugging, have you had over the last year?

Occasionally, we observe the presence of fats, oils, and grease (FOG) in our collection system; however, this issue has been improving. We have been working proactively with local businesses to ensure their grease separators are cleaned on a predetermined schedule. In addition, we conduct inspections of these separators and notify owners when cleaning is needed. These efforts have made a significant positive impact on both our collection system and the headworks at the treatment plant.

Is your utility currently preparing or updating its capital facilities plan?

Yes

No

Does the municipality/district pay for the continuing education expenses of operators?

100%

Partially

Does not pay

Is there a written policy regarding continued education and training for wastewater operators?

Yes

No

Do you have any additional comments?

N/A

To the best of my knowledge, the Collections System section is completed and accurate

True

False

Wastewater Treatment Options

You have either just completed or just bypassed questions about a Collection System. If this section was bypassed by mistake, in the next question you will have the option to return to the questions on a Collection System. If you are good with the progress up to now, next you will determine what kind of Wastewater Treatment you have, or you can choose NO Wastewater Treatment.

What kind of wastewater treatment do you have in your wastewater treatment system?

Mechanical Plant

Discharging Lagoon

Non-Discharging Lagoon

No Treatment of Wastewater

Collections (go back to Collections)

Mechanical Plant

Form completed by [name]?

The person completing this form may receive Continuing Education Units (CEUs).

Jason Callaway

Part I: INFLUENT INFORMATION

Please answer the following questions regarding INFLUENT INFORMATION.

What is the design basis or rated capacity for average daily flow in MGD?

1.0

What is the design basis or rated capacity for average daily BOD loading in lb/day?

2085

What is the design basis or rated capacity for average daily TSS loading in lb/day?

2085

What was the 2024 average daily flow in MGD?

.927

What was the 2024 average daily loading for BOD in lb/day?

1391

What was the 2024 average daily loading for TSS in lb/day?

2783

What is the percent of capacity used by the 2024 average daily flow?

92.7%

What is the percent of capacity used by the 2024 average daily BOD load?

66.7%

What is the percent of capacity used by the 2024 average daily TSS?

133%

Part II: EFFLUENT INFORMATION

Please answer the following questions regarding EFFLUENT INFORMATION.

How many Notices of Violations (NOVs) did you receive for this facility in 2024?

0

How many days in the past year was there a bypass or overflow of wastewater at the facility due to high flows?

0

Part III: FACILITY AGE

Please answer the following questions regarding FACILITY AGE.

In what year was your HEADWORKS evaluated?

2023

In what year was your HEADWORKS most recently constructed, upgraded, or renewed?

2013

What is the age of your HEADWORKS?

11

In what year was your PRIMARY TREATMENT evaluated?

2023

In what year was your PRIMARY TREATMENT constructed, upgraded or renewed?

2013

What is the age of your PRIMARY TREATMENT?

11

In what year was your SECONDARY TREATMENT evaluated?

2023

In what year was your SECONDARY TREATMENT constructed, upgraded or renewed?

2013

What is the age of your SECONDARY TREATMENT?

11

In what year was your TERTIARY TREATMENT evaluated?

2023

In what year was your TERTIARY TREATMENT constructed, upgraded or renewed?

2019

What is the age of your TERTIARY TREATMENT?

11

In what year was your DISINFECTION evaluated?

2023

In what year was your DISINFECTION constructed, upgraded or renewed?

2013

What is the age of your DISINFECTION?

11

In what year was your SOLIDS HANDLING evaluated?

2023

In what year was your SOLIDS HANDLING constructed, upgraded or renewed?

2019

What is the age of your SOLIDS HANDLING?

11

In what year was your LAND APPLICATION/DISPOSAL evaluated?

2023

In what year was your LAND APPLICATION/DISPOSAL constructed, upgraded or renewed?

2013

What is the age of your LAND APPLICATION/DISPOSAL?

Dispose solids in Payson City Landfill

Part IV: DISCHARGES

Please answer the following questions regarding DISCHARGES.

How many days in the last year was there a bypass or overflow of wastewater at the facility due to equipment failure?

0

Part V: BIOSOLIDS HANDLING

Please answer the following questions regarding BIOSOLIDS HANDLING.

Biosolids disposal (check all that apply)

☒ Landfill

Land Application

Give Away/Other Distribution

Part VI: NEW DEVELOPMENT

Please answer the following questions regarding NEW DEVELOPMENT.

Number of new commercial/industrial connections in the last year?

1

Number of new residential sewer connectins added in the last year?

305

Equivalent residential connections served?

5283

Part VII: OPERATOR CERTIFICATION

How many treatment system operators do you employ?

3

State of Utah Administrative Rules requires all public system operators considered to be in Direct Responsible Charge (DRC) to be appropriately certified at leaset at the Facility's Grade. List the designated Chief Operator/DRC for the Collection System by: First and Last Name, Grade, and email.

Grades: SLS17-1, Grade I, Grade II, Grade III, and Grade IV.

Gregg Hiatt. Grade IV Treatment

Please list all other wastewater treatment system operators with DRC responsibilities in the field, by name and certification grade. Please separate names and certification grade for each operator by commas.

Grades: SLS17-1, Grade I, Grade II, Grade III, and Grade IV.

Jason Callaway, Grade IV Treatment

Please list all other wastewater treatment operators by name and certification grade.

Please separate names and certification grades for each operator by commas.

Grades: SLS17-1, Grade I, Grade II, Grade III, and Grade IV.

Pat Hatfield, Grade I Treatment

Is/are your DRC operator(s) currently certified at the appropriate grade for this facility?

Yes

No

Part VIII: FACILITY MAINTENANCE

Please answer the following questions regarding FACILITY MAINTENANCE.

Have you implemented a written preventative maintenance program for your treatment system?

Yes

No

Have you updated the treatment system operations and maintenance manual within the past 5 years?

Yes

No

Please identify (below) the types of treatment equipment and processes installed at your facility.

Indicate as many as you need.
